

Please be certain to comply with Sections 7.07, 7.08, 7.11 and 8.03 at all times in the future in addition to following all other covenants and rules of the Association. The Association is monitoring all of the Subdivision to identify any new violations and to compel compliance in all cases, first by notices, and then by fines and/or formal enforcement action where necessary.

If you become aware of a person violating any covenants or provisions of the governing documents after the date of this letter, please inform the Manager or the Board of: 1) the date you noticed the violation and 2) the address of the violating owner or occupant. You do not have to provide your name to report a violation.

We and your neighbors will appreciate your cooperation and support in the Association's efforts to enforce the documents, once and for all, for the purpose of preserving the Subdivision as a quality community in which to live and own. Thank you for doing your part.

Sincerely,

A handwritten signature in cursive script that reads "Diane Miller".

Diane Miller, President

On Behalf of the Board of Directors
